

MASTER OF YOUR IN-HOUSE SECURITY, OUR EXPERT ON-SITE ANALYSIS WILL DETERMINE:

- a. Level of security needed (shred size requirement).
- b. Actual volumes for processing (type of devices).
- c. Strategic placement of devices (stationary or mobile).
- d. Ease of operation and technical support (personnel training).
- e. Complete concept satisfaction (change of devices, cut sizes, etc).

SAFE RECYCLING

1. No document is taken before it has been shredded.
2. Rental machines can be made available in times of extremely high volumes.
3. Other media that are public knowledge can be incorporated into the recycling process (ex:boxes, magazines, newspapers, etc).
4. Small carbon foot print (very low truck emission).
5. All paper is sent to paper mills for pulping, saving many trees and preserving ecological terrain.

CUSTOMIZED REMOVAL:

1. We will arrange for the paper collection according to your time, frequency and schedule.
2. Variable collection devices.
3. Authorized Binatek personnel.
4. Logging of pick ups.

COST SAVING SOLUTION

1. Free pick up of shredded documents.
2. Minimum of 10% to 50% monthly cost saving compared to shredding service.
3. Fixed monthly cost (no fuel, weight, or hourly surcharges).
4. No additional payments at the end of payment term.

GREEN DOLLAR RETURN

1. The solution that keeps on giving.
2. Money that is raised through the recycling process is proportionately given back to participants.
3. Returns can be pledged to supported charities or foundations.
